--	--	--	---	---	--

Buy some 12 1/2 seersucker at 8 3/4c yd.

You'll have to come early. Have limited quantity in light blue and white, and black and white, medium size checks. These goods are positively fast color, and you'll find them among the most "worn-out" materials you can get at any price. Just what you want now for school dresses and house wrappers. First floor—Bargain Tables.

GREAT PURCHASE OF GUARANTEED black dress taffeta and novelty silks

1,200 yards 35-inch guaranteed black dress taffeta silk, worth \$1.75, **\$1 yd.**

1,400 yards 26-inch guaranteed black dress taffeta silk, worth \$1.25, **79c yd.**

Worth 75c and \$1.00. { 2,400 yards of novelty fancy silks, including plaids, stripes, and figures. } **at 59c yd.**

Wool challis, 29c yard.

Usual 39c quality.

One couldn't ask for daintier or more charming effects in a material for house gowns, kimono, wrappers, and other uses to which challis is put. These are in light grounds with figures in delicate colorings, and with satin stripes effectively combined. You'll wait a long time for a better value, and then it might not come at a season when you're sure to have immediate need for it. First floor—Wash Goods.

\$3.00 Linen **Waists** at \$2.00

\$1.50 Sateen **Waists** at \$1.00

Come and see what unusually good values we are offering at these two prices to-morrow. They are special price lots; otherwise we could not offer them at such reduction. The need for a new short waist, and to buy when these bargains are offered is to save money for another waist.

15 DOZEN Fine Waists, made of pure linen, and soft lingerie material; have all-over embroidered fronts, very handsome embroidery in lovely new designs; fasten back or fasten front styles; made with long sleeves. Worth \$2.00. Our price.....**\$2.00**

BLACK Sateen Waists, made of the best quality French imported material, Marie Antoinette styles; tucked back, and front tucked to bust; long sleeves. These in all sizes. \$1.50 values to-morrow.....**\$1.00**

Waist Dept.—First floor.

RAW SILK is now the highest in the history of this country, which fact makes this sale all the more extraordinary and likely to interest those who know conditions. The black silks came from a jobber whose financial difficulties made it necessary to sacrifice staple goods to get money immediately. The novelty silks were purchased from a maker who, becoming disgusted with conditions, decided to run his mills on other fabrics. The values in each of the three lots are so extraordinary that we warn buyers that we shall not be able to duplicate these silks at the sale prices. Both lots of black taffetas are identical in quality, the difference being solely in the width. We advise liberal buying of both widths. Dressmakers, particularly, should take advantage of the sale.

This is luck! We're happy over it. You'll be, too.

Another big sale of sample suits at \$19.75

Worth up to \$40.

The Burson stocking

Seamless and knit to fit.

With split white feet, "seconds" of the 25c quality, made without seams, knitted to the shape of the leg, and do not hurt the feet. These pairs are nearly perfect, and are a part of the big purchase, offered last week, with only the difference in the feet. We shall offer these at a price Monday.....**19c**

Hosiery—First floor.

Surah plaid silks the fashionable thing this season— 250 DIFFERENT STYLES.

The most comprehensive assortment south of New York. Styles that will not be seen elsewhere. It has been ten or twelve years since surah plaids were in vogue, and this is to be wondered at, because they possess many advantages over other kinds. They are beautiful, soft, pliable, and adaptable to uses that other silks cannot be used for. Especial attention is invited to the displays of:

NEW SATIN STRIPED PLAIDS. **NEW SURAH PLAIDS.** **NEW PLAID TAFFETAS.**

All of which will be found in a variety of exceptionally pretty color effects and patterns. Prices range, a yard, 69c, 75c, 89c, \$1.00, \$1.25, and \$1.50. First floor—Silk Department.

Wash boilers for 98c

Worth up to \$2.48.

Copper bottoms. We can supply 400 families with choice of sizes 7, 8, or 9. All are made of the No. 2 or No. 4 Cross tin, which is of extraordinary quality and so heavy as not to be easily punctured or dented. These boilers are big values also by reason of their having 18-ounce copper bottoms. They will not rust or burn out. Third floor.

We sell Danish cloth at 15c yd.

It is that famous half-wool washable fabric especially liked for children's and women's dresses, because of its deceptive likeness to all-wool goods and its durability. Have it in both cream and black. You'll find nothing more serviceable. At Wash Goods Dept.—First floor.

Lamps, \$1.98 **WORTH UP TO \$7.98.**

We had such good luck with the first purchase that we ordered more. We've 200, in about fifty different shapes and decorations, to offer to-morrow. All have the best center draught burners—some call them Rochester burners—and sold brass oil fountains. Bases and globes decorated in colors to match. Globes are 10 and 11 inches in diameter. Come early and you can get first choice. Third floor.

3-pint water pitcher for 19c **LIMIT OF ONE TO A BUYER.**

It has been many months since we had such a big bargain in a pitcher—something that every family needs. We got 750 of them at half what we have often paid for the same kind. Made of the very clearest glass and in an exact imitation of a popular cut glass pitcher. Sure to please you. 15c. (One to a buyer.) Third floor.

Wash boilers for 98c

Worth up to \$2.48.

Copper bottoms. We can supply 400 families with choice of sizes 7, 8, or 9. All are made of the No. 2 or No. 4 Cross tin, which is of extraordinary quality and so heavy as not to be easily punctured or dented. These boilers are big values also by reason of their having 18-ounce copper bottoms. They will not rust or burn out. Third floor.

FURNISHING COST ESTIMATED

New Municipal Building Committee Makes Report.

Fixes Amount Required to Properly Equip District Structure for Occupancy at \$135,015.67.

Estimates submitted to the Commissioners yesterday by a special committee, fix the cost of furnishing and equipping the new Municipal building at \$135,015.67. Of this sum approximately \$43,000 is to be expended in furnishings, including desks, screens, mirrors, rugs, &c., and the remainder in metal filing cases, lockers, letter presses, partitions, counters, railing, electrical fixtures, and like equipment of office necessities.

The reports submitted by the head of each department, in response to the general order of the Commissioners, giving lists of the new furniture needed and old furniture available for use in the new building, has been used by the committee as a basis for the estimates. The amount of furniture asked by the various heads has not been reduced, the committee seeking only to standardize the various kinds as far as possible.

Approximate net prices for all furniture have been obtained from the large reliable dealers. The designs for lighting fixtures were submitted to two prominent manufacturers, and all partitions, cupboards, counters, railings, &c., of a permanent nature were submitted to the contractor of the building for estimate. The old furniture considered available for use has been carefully examined and a portion of it will be used in the new building.

An avoidance of extravagance is noticeable throughout the estimates, which are considered most reasonable when compared with the cost of furnishing Federal buildings.

In view of the recommendation of the committee that the amount be included in the urgent deficiency bill so that it may be made available as soon as possible, the Commissioners will act promptly upon the report.

Commissioner Macfarland yesterday expressed himself as much pleased with the thorough manner in which M. C. Hargrove, property clerk; Walter C. Allen, electrical engineer, and D. E. McComb, superintendent, who comprise the committee, performed the work of preparation of the estimates.

Gaelic League to Resume.

The classes in the Irish language will be resumed at Carroll Institute Tuesday at 8 p. m. The opening exercises, music and speeches, will be given in Irish by distinguished linguists and members of literary societies.

PLAN CO-OPERATIVE STORE.

Departmental Guild Procures a Fine Location.

Plans have been completed by the executive committee of the Departmental Co-operative Guild for the opening of the first department of the mammoth store for government clerks, which it is the intention of the guild to erect in this city.

The committee has rented the building at the northeast corner of Ninth and G streets northwest, formerly occupied by a tailoring establishment. Temporary repairs will be made immediately, and in the near future it is hoped to either erect a new building or thoroughly remodel the old one. The committee has been successful in its endeavor to secure a central location, the building in question being located in the heart of the business district and within easy access of all car lines.

A manager for the business has not yet been selected, but a great many applications have been received and are being considered. The committee having this matter in charge reported at the last meeting of the board of directors that an application for the position of manager had been received from an experienced co-operative man, who served an apprenticeship with one of the large English co-operative societies and rose to the rank of manager of one of their branch stores. It is the general opinion that a man with such experience would insure the success of the enterprise from the outset.

At the recent meeting of the board of directors of the guild the auditor submitted a detailed report of its financial affairs to date, which was highly satisfactory. Based on this report, Dr. Patten, president of the guild, stated to a reporter that he saw no reason at present why the association could not have a first-class grocery and provision store in operation in November.

NEW ORGANIZER NAMED.

Charles D. Scott Booming Order of Foresters.

Charles D. Scott, of 1115 Pennsylvania avenue southeast, has been recently appointed organizer for the District of Columbia Order of Foresters. Mr. Scott has long been one of the leading residents of East Washington, and brings to his new position a large acquaintance among the residents of that section, together with many friends in other sections.

The Order of Foresters is thirty-five years old, and has among its members men and women of different creeds and nationalities, and boasts now of a membership of more than 20,000. The regular meeting place of Court Potomac, No. 815, is Third and Pennsylvania avenue southeast.

Bakers Re-elect President Leary.

H. B. Leary, for five years president of the Washington Master Bakers' Association, was elected president yesterday of the National Association of Master Bakers, now in convention in Chicago.

NOTED CHURCHMEN COMING

Brotherhood of St. Andrew Expects Big Attendance.

International Convention Will Represent Many Countries—To Begin September 29.

Noted churchmen from England, Canada, Scotland, Japan, the West Indies, the Philippines, and other countries, will, it is stated, attend the international convention of the Brotherhood of St. Andrew, to meet in Washington beginning the 29th of this month.

Among the laymen from some of the foreign countries will be George A. King and Albert E. Norman, vice president and secretary, respectively, of the Brotherhood in England; Arthur Giles, head of the organization in Scotland; A. G. Alexander, N. Farrar Davidson, F. W. Thomas, and John A. Birmingham, of the Brotherhood in Canada; George T. Armstrong, general secretary of the Brotherhood in the West Indies, and James J. Chapman, who will represent the organization in Japan. Mr. King, Mr. Davidson, and Mr. Giles will, it is expected, respond for their respective countries to the addresses of welcome at the opening business session on Thursday morning.

Messrs. Alexander, Thomas, and Birmingham are scheduled to speak at the general conferences on Friday afternoon, the subject to be "Good work for your chapter." They are to speak, respectively, under the subtitles, "Bible Classes," "Visiting," and "Hotels and Hospitality."

The delegation from England sailed from Liverpool on September 5, and, after visiting a few points in Canada, will reach Washington September 24. Mr. Giles, the representative from Scotland, has already arrived in America, and is spending a few weeks in the West before coming to Washington.

In addition to these laymen, quite a number of prominent bishops and clergymen will be in attendance from England, Canada, the Philippines, and the West Indies. The local committees in preparation for the convention have mailed their final letters containing general information to the large number of delegates expected to attend.

Every indication points to the largest convention of the organization ever held, and it is believed the gathering will prove to be the largest assemblage of laymen of the Anglican Communion ever assembled. The convention will remain in session until September 29, and the business sessions and conferences will be held in Continental Hall, Seventeenth and D streets northwest.

October 8, 1907. Remember the date.

Bert T. Amos, Chairman of the committee for the convention of the Brotherhood of St. Andrew.

MUSIC AND MUSICIANS.

Miss Beatrice Seymour Goodwin will sail on September 21 for Paris, where she will spend the winter studying under the music masters of the French capital. Miss Goodwin has devoted much of her time in Washington during the past year to church music, and is well known in musical circles.

The Nordic Mandolin and Gutter Club, Walter T. Holt director and H. Ernest Galleher assistant, will resume rehearsals Tuesday, September 24, at Hugo Worth's music store, 110 G street northwest. Mr. Holt has been reappointed instructor and director of the Y. M. C. A. Mandolin, Gutter and Banjo Club for this season.

The plans of the Boston Symphony Orchestra for the coming season are now complete. It will give the usual twenty-four public rehearsals and twenty-four concerts in Boston, the usual ten concerts in New York, six in Cambridge, five each in Philadelphia, Brooklyn, Baltimore, and Washington, and three each in Providence and Worcester.

Mme. Olga Samaro, the distinguished pianist, who is again to make a tour of this country under the management of C. A. Ellis, of Boston, is now in Munich, where she went for the Wagner and Mozart festivals.

Miss Irene A. Dietrich has been substituting at the Church of Our Father for four weeks.

CARDINAL WILL OFFICIATE

Large Class to Be Confirmed at Forest Glen.

More Than Fifty Children Will Receive Sacrament at Historic St. John's Chapel.

At St. John's chapel, in Forest Glen, Maryland, to-day, Cardinal Gibbons will administer the sacrament. There will be more than fifty children participants, with two converts on the list.

St. John's was known as Carroll Chapel, when the foundation was laid in 1774 by Archbishop Carroll. It is now in charge of Rev. Charles O. Rosensteel, who recently relinquished supervision over the Church of the Nativity, of Brightwood, D. C., and from which a class of twenty children will be present to-day. He will be assisted at mass by Rev. George Dougherty, of the Catholic University of America, after which his eminence will confirm the large class.

Father Rosensteel took charge of St. John's and until 1885 officiated at Rockville and Forest Glen, when he gave up the Rockville parish, taking Brightwood and St. John's. He will be succeeded in Brightwood by Rev. F. X. Blachoff, of St. Augustine's, Washington. Father Rosensteel has been instrumental in establishing missions at Olney and Chevy Chase Lake, and his zeal has brought many into the church. His brother, Rev. Thomas W. Rosensteel, is pastor of St. Joseph's church, at Parkburg, Pa.; his aunt was a Sister of Charity, and two cousins are priests. He is a great-grandson of Capt. Joseph White, of Baltimore, in whose house was said the first mass in America. He was born in 1855, educated at Emmitsburg, and ordained to the priesthood at St. Mary's Seminary, Baltimore, by Cardinal Gibbons, December 20, 1884.

At the services to-day, the church, which at the laying of the corner stone in 1883, was termed the "Bethlehem of America," by Bishop O'Gorman, will be beautifully decorated.

Following is the list of those to whom the cardinal will administer the sacrament of confirmation:

Edward Carroll Ciesel, Eric B. Ciesel, James Leo Kelly, Thomas Oscar Kelly, Charles E. Kelly, Malcolm Dingo Walters, Frank Paul Clark, Charles P. Clark, Donald Edmund Clark, Henry C. Clark, Ernest G. Edlin, Bernard Sheehan, John P. Reaney, George Mimos Brown, Cecil Herbert Claude, Es. Main Smith, Carrie Ellen Smith, Mary M. Kelly, Margaret Kelly, Alice G. Kelly, Hattie Morrow, Viola L. Rabbitt, Edith Mabel Barnes, Bertha E. Barnes, Elizabeth Nole, Mildred Aileen Page, Catherine M. Elmer, James H. Fling, Cath. L. Fling, Constance W. Shaw, James Edward Kelly, Edith E. Kelly, Frank R. Howard, William Cox, James Schneider, Francis Schneider, John W. Moran, Mary Margaret Connor, Agnes E. Garver, Elizabeth Angus Redmond, Elizabeth F. O'Brien, Ada Virginia Lambeth, Annie Marie Hurlin, Lillian M. King, Lillian M. Beck, Margaret S. Donovan, Alice L. Deane, Annie C. O'Connor, Mrs. Frances Virginia Fent, Teresa Bowman, and Mary Kelly.

MUSICIANS WILL GATHER.

American Mandolin, Banjo, and Gutter Guild to Hold Convention.

The cultivation of instrumental music in this city has, during the last five years, according to the views of some, experienced a phenomenal growth. It is further claimed that the future will only add to make this branch of education and recreation more popular.

There is hardly a stringed instrument that has gathered so many enthusiasts and admirers as the banjo, which only ten years ago was looked upon as a toy. Successful efforts have been made in the past years to raise this instrument from the rank of an almost unknown instrument to that of other standard mediums. To Walter T. Holt, one of the best known musical instructors in this city, this success is large due, he having selected the mandolin as his favorite instrument and, devoting most of his attention to it, he has succeeded in convincing the music-loving public of the mandolin's great possibilities. Mr. Holt is not only an expert on the mandolin, but he plays the banjo and guitar in equally accomplished style. He is the organizer of the popular Nordic Mandolin and Gutter Club, whose membership now numbers sixty.

Through the efforts of Mr. Holt, the American Mandolin, Banjo, and Gutter Guild, composed of about 20 of the most progressive teachers in the United States, will hold its convention in this city the coming winter, when a large concert will be given by the Nordic Club under Mr. Holt's direction.

WELLS FARGO ACCUSED.

Express Company Charges Excessive Rates, According to Complaint.

A charge that the Wells Fargo Express Company violated the Hepburn railroad rate act in failing to comply with the rates given in a schedule filed with the Interstate Commerce Commission, covering shipments of merchandise between San Francisco and New York, is contained in a complaint submitted to the commission yesterday by the California Commercial Association.

The complainant, through its New York agent, the Dry Goods Shipping Company, of 347 West Broadway, offered the express company an assorted lot of merchandise in excess of 10,000 pounds, but under 20,000 pounds. Instead of assessing charges in accordance with its schedule, the express company demanded payment on a much higher basis, it is alleged, the complainant "having suffered thereby in the sum of \$700, more or less."

Will Extend Mexican Railroads.

As a result of the heavy investment of Americans in mining property there, the Mexican government has authorized George W. Bryan, representing the Mexican Milling and Transportation Company, of the State of Guanajuato, to construct and operate for ninety-nine years a network of railroads which will reach practically every mine in that State.

MONEY MARKS FROST LINES

Good as Weather Map for Treasury Officials.

Burned Bills, Rescued from Stoves, Presented for Redemption, Tell Tale of Cold Snap.

Officials in the Treasury Department declare they need no Weather Bureau map, marked with pretty colored lines, to follow the frost line through the country.

"Fall frosts leave a trail of burned or partially burned money clear across the country," said one official yesterday, when asked how the meteorological department of the Treasury gets its information.

It is the foolish fear of countrymen who do not like to deposit money in banks that provides the means for blazing the frost trail. All over the country during the summer time cautious farmers deposit their money in the stoves, and then on the first frosty morning neglect to get out of bed. The result is that their slothfulness is shaken off just in time to see their money going up in smoke. Sometimes they are able to rescue the ashes and sometimes the money is not burned badly enough to destroy all marks of identification.

But, ashes and all, it gets to the Treasury Department for redemption, and thus the officials there know about when the first frost comes. According to their data this year, it began in Maine, came South, and then west West.

"Indiana struck a frost a little early this year," surmised one official, recalling the visit Tuesday of a bank cashier from Bloomfield, who brought several hundred dollars for a client to be redeemed, and who was himself robbed of his own money and ticket before he got to the Treasury Department.

Persevere for Half Holiday.

For the second time a delegation from the Central Labor Union, consisting of P. J. Ryan and H. T. Le Clair, yesterday called upon the Commissioners in the interests of the machinists of the Bryant street pumping station, for whom they desire to obtain a Saturday half holiday.

At the previous conference, Commissioner Morrow appeared to disapprove of the request, as it would involve the extension of the privilege to numerous employees of the same status, to the detriment of the District's interests. The Commissioners will, however, take the matter under advisement and probably arrive at a decision at the next meeting of the board.

Jamestown visitors are arriving daily and looking for furnished rooms. An ad. in The Herald will get them. The Herald has the largest circulation at Norfolk and Jamestown of any Washington paper.
